+1 512-450-8961 • keanu@kerr.us

SKILLS

Programming Languages	Go, Java, Rust, Python, TypeScript, JavaScript, C++, C, Bash
Frameworks & Libraries	Go-Chi, Protobuf, Spring, JAX-RS, Node, Angular
Technologies & Services	Linux, Git, REST, gRPC, PostgreSQL, Docker, k8s, AWS, Azure

EXPERIENCE

Bread Financial	March 2023 - Present
<i>Software Engineer</i>	<i>Philadelphia, Pennsylvania</i>
• Developed REST and gRPC APIs in Go, integrating with PostgreSQL databases for financial services • Implemented features for loan processing, payment systems, and credit bureau reporting workflows • Containerized and deployed microservices using Docker on Kubernetes infrastructure	
General Motors	February 2020 - March 2023
<i>Software Engineer</i>	<i>Austin, Texas</i>
• Developed REST APIs using Spring Framework and JAX-RS with Oracle database integration • Improved search API performance with Elasticsearch cluster implementation and optimization • Implemented TDD methodology and CI/CD pipelines using Docker on Azure Kubernetes Service	
Elgato	May 2016 - August 2016
<i>Software Engineer Intern</i>	<i>Munich, Germany</i>
• Developed JavaScript test overlays for Game Capture software to improve QA testing efficiency • Built internal metrics dashboard using Angular for real-time application monitoring • Collaborated across development teams using Git workflows for internal web application development	

PROJECTS

University of Edinburgh	April 2019 - August 2019
<i>Master's Dissertation Project</i>	<i>Edinburgh, Scotland</i>
• Developed multiplayer RPG in Java using JavaFX GUI and peer-to-peer networking architecture • Implemented OO design patterns to create an educational framework for computer science students • Authored comprehensive documentation including setup guides and extensibility framework	
University of Florida	January 2018 - May 2018
<i>Senior Project</i>	<i>Gainesville, Florida</i>
• Developed Angular web application for custom game character creation with dynamic form validation • Built Go backend service with REST API for user profile management and character data persistence • Deployed full-stack application on self-managed Linux server infrastructure	

EDUCATION

University of Edinburgh	November 2019
MSc in Informatics	
University of Florida	May 2018
BSc in Computer Science & Minor in Studio Art
